EDUCATION

University Institute of Technology,Barkatullah University , Bhopal — 2019-2023
Bachelor of Engineering in Electronic and Communication Engineering — *7.62 CGPA*

Govt. PT. L.S. Jha Model H.S. Excellence School, Jabalpur — 2017-2018
Higher Secondary — *83.6 %*

Saraswati Shishu Vidya Mandir High School, Jabalpur — 2015-2016
High School — *91.2 %*

EXPERIENCE

Manasvi Technology OPC Private Limited — July 2023 – Present
React Developer Intern — *Bhopal, M.P.*

- Developed and maintained efficient web applications using the Mern stack (MongoDB, Express.js, React.js, Node.js).
- Implemented RestApi to facilitate seamless communication between the frontend and backend.
- Integrated third-party libraries and APIs to enhance functionality and improve user experience.
- Utilized MongoDB and MySql for efficient data storage and retrieval, implementing database schemas, and performing database optimization.

PROJECTS

Medalert - Ambulance Booking | *BootStrap, React, Node, RestApi, Git, CLI*
* Developed a live, non-profitable web application for ambulance bookings called MedalertLife
* Utilized MERN (MongoDB, Express.js, React.js, Node.js) stack for end-to-end web development
* Implemented authentication and authorization, including registration, login, logout, and password management.

Evyapar | *React, AntDesign, Recharts, NodeJs, NoSQL*
* Led the development of a MERN-based e-commerce site, ensuring a dynamic and responsive user experience.
* Employed React, Ant Design, Axios, Moment.js, React Router, and Recharts for an appealing and responsive UI
* Efficiently managed project dependencies using package managers for a scalable project structure.

DineStay | *React,Redux,RazorPay,JSON,NodeJs,MongoDB,BitBucket*
* Implemented a clean and modern design that aligns with the restaurant's branding.
* Created an interactive and engaging user experience, allowing customers to easily browse the menu, make reservations, and order online.
* Established a secure backend infrastructure using Express.js and MongoDB with Mongoose for efficient data storage and retrieval.
* Implemented a content management system (CMS) that allows the restaurant staff to easily update the website's content without requiring any coding knowledge.

TECHNICAL SKILLS

Languages: C, C++, MySqL, JavaScript, HTML/CSS
Frameworks: React, Redux,Node.js, Material-UI, BootStrap, RestAPI
Databases: MySQL Server, MongoDB
Version Controls: Git Github, Bit Bucket

ACHIEVEMENTS & CERTIFICATIONS

* Honored by the Chief Minister with a laptop and cash prize for achieving excellent results in the HSC examination.
* Demonstrated strong problem-solving skills by successfully solving over 500 problems on platforms like LeetCode and GeeksforGeeks.
* Awarded a certificate from HackerRank, showcasing advanced proficiency in JavaScript programming.
* Certified in Node.js, demonstrating proficiency in server-side JavaScript development.
